

Borah Has Heard Brown Slayer and From 3 on Dry Law Attitude

Bernardsville, N. J., Feb. 24 (AP).—A "Doctor Hunt" or "Hoff" was being sought by police today as the slayer of Miss Margaret Brown, 40-year-old governess who was burned to death near here Monday night.

Search for the slayer was intensified by receipt of the anonymous letter in which the writer confessed the slaying and returned \$2,500 in bonds and cash he had taken from his victim.

A friend of Miss Brown's said the murdered woman had been meeting a man named either "Hoff" or "Hunt", and who called himself a "doctor", in Central Park. He was known to be the owner of an automobile similar to that seen near the scene of the murder. The letter said the writer had told Miss Brown he was a medical student.

The letter, mailed from Newark on Wednesday, disposed of the police theory that robbery was the motive for the crime. The writer said he struck the woman when she resisted his advances, and believing her dead he asked her clothes in gasoline and ignited them.

The authenticity of the confession was established by the police when their investigation showed that one of the two \$1,000 bonds enclosed had been issued to Miss Brown.

The slayer was believed by the police to be a man Miss Brown had been in the habit of meeting in Central Park, New York, and whom she had described to her employer, James Gillespie, of Park avenue, New York, as a "fine gentleman with a car."

The slayer in his confession said he had met Miss Brown in New York and they had driven to this scene where along a lonely road, known as "Lovers' Lane", he had attempted to attack her. He said he had asked her to marry him, but she had always told him "she would not marry a poor man."

First reports of the autopsy on the woman's body made no mention of head wounds but after receipt of the confession authorities said there was a blood clot in the mouth that might have been caused by a blow.

Another Democratic prospect, Governor Ritchie of Maryland, has often made known his contention that prohibition, and a host of other questions, should be left for settlement by the states themselves, without federal intervention. Others mentioned for the nominations, possibly waiting to see if Senator Borah is going to mail them, questionnaires, are resting on previous statements for or against prohibition or for law enforcement.

More positive views may be expected when the favorite sons and others get into the swing of the pre-convention campaign.

Governor Smith of New York, whose views on prohibition are giving great concern to dry Democrats, told his state legislature in his message last January 2 that future amendments to the federal constitution should be referred to a referendum in New York.

The Empire State has no prohibition enforcement law of its own, but the Governor said this in his message.

"In the meantime there devolves upon the state the sacred duty of sustaining the eighteenth amendment, and the Volstead law. They are as much a part of the laws of this state as our own statutes and our own Constitution."

Eugene, Oregon, Feb. 24 (AP).—A campaign to raise enough money to rescue three University of Oregon students from the clutches of destitution which overtook them in Central Park, New York, after they had debated their way around the world, got under way on the campus here today.

It all began last year when the debaters, Benoit McCroskey and Avery Thompson of Salem, and Jack Hempstead of Portland, left here on a world wide debating tour, said to be one of the most pretentious programs of its kind ever undertaken by American University students. They had a little money and a lot of moral support, both furnished by the student body.

To San Francisco, Honolulu and the Orient they carried the conquest of words. When money began to run low, they scrubbed decks and washed dishes. Through China and Europe they made their way. The Capitals of the continent received them and they continued to thrive. London was the last stand. They left there with a thin purse.

Yesterday the student body here received a telegram collect from McCroskey in New York. It said: "Arrived yesterday afternoon, slept in Central Park last night. Hempstead caught a cold because the slats in his bench were so far apart that a draft was created. Had fifteen cents for breakfast, and bought hot cakes, each of us taking one. Send some cash as soon as possible. We can't keep this up much longer."

Navigation on River Resumed

Steamer Poughkeepsie Expected Here Early Tonight—Will Leave Sunday for New York—Ice Still Holding in River.

Navigation between this port and New York is to be resumed by the Central Hudson Line. The steamer Poughkeepsie is expected to arrive in the Rondout creek early this evening, and will leave for New York on Sunday, and thereafter there will be daily steamer service between Kingston and down river points, weather conditions permitting.

The Central Hudson Line maintained daily service between this port and New York all winter until several weeks ago when the steamer Poughkeepsie broke her steering gear while off Port Jervis and was assisted into the Rondout creek by the tug Rob. The following day she was towed to Newburgh for repairs. Since then the steamboat company has been trucking freight from this city to Highland where it was placed on the steamers of the line.

While the ice in the Hudson river is still fast it is not expected that the Poughkeepsie will have any difficulty in breaking a channel through it.

The ferry, Transport, has been running all winter and is still operating. She has missed but few trips and those made in her place by the tug Rob which has been kept in commission to assist the ferry.

WHEELER PLACED UNDER ARREST

Sylvester Wheeler, 22, of Kysarjke, was arrested about 10 o'clock Thursday evening by Special Officer Floyd Hicks, who charged the young man with operating a Ford coupe while in an intoxicated condition. Wheeler was lodged in the county jail over night and the car placed in the police garage.

This morning in police court the hearing was adjourned to Tuesday morning and bail fixed at \$250. Wheeler was arrested on Broadway.

TWO OF 350 CHICAGO CAFES CLOSE AHEAD OF PADLOCKS

Chicago, Feb. 24 (AP).—Two of the 350 cafes which the government seeks to padlock have closed their doors voluntarily. Club Bagdad, one of the largest on the south side, and Hollywood Barn, on the north side, announced last night they would not reopen. A half dozen others, also under temporary injunction, have indicated they soon would follow suit.

Hearing on the first group of the pending padlock proceedings was set for today.

CLIMBING HOPS OFF AGAIN.

Port Darwin, Australia, Feb. 24 (AP).—Bert Hickler, who flew from England to Australia, left this morning on a flight of some 300 miles to Conco, Queensland. After greeting his mother at Bundaberg, he plans to fly to Canberra to deliver a letter to Premier Bruce from the Australian high commissioner at London. Afterward he will fly to Melbourne and there his flight to the south will end.

Hoover Urges Kent, Boy Orator, Bandits Use Flood Control At Service Club Legislation

Washington, Feb. 24 (AP).—Herbert Hoover, candidate for the Republican presidential nomination, made his long-heralded appearance today before the Senate commerce committee with the statement that he was in duty bound to stand with his administration colleagues in the flood control program.

Under questioning by Senator Hawes, Democrat, Missouri, the secretary expressed the belief that the long-standing principle of a division of cost between the federal and state governments should be adhered to as a method of assuring competence and economy in federal expenditures.

At the same time he said the amount of money already spent by the south in protection against flood needed to be taken into consideration, along with the losses in the flood territory.

The secretary appeared in a committee room jammed with spectators looking for political excitement. Interest had been whetted by the importance of Senator Willis of Ohio, another Republican presidential candidate, that Hoover give the committee his views, especially on the question whether the government should shoulder the entire flood cost, or whether the states should participate.

He began with a recital of the tribulations of the population of the flooded area and asserted that it was his view that to some degree the minor slackening in business activity at present is a repercussion of the flood. Hardly flood legislation, he said, would be of value in stabilizing the economic fabric.

"It would restore courage, confidence and enterprise in the people of the flood territory, would stimulate their activities for the future, and would give larger employment both in actual labor upon the works and in the manufacture of equipment that will be required for its construction," he said.

Replying to a question by Senator Hawes as to the administration's plan for dividing the cost of flood control between the federal government and the Mississippi valley states, Hoover said he could not be expected to reconstruct recommendations of another department of the government.

"It is my duty to support the proposal made by my colleagues," he said. "It involves problems of right of way and flood rights. Some of the works will be located in one state for the benefit of another state; some in one levee district for the benefit of another levee district."

Reminding the secretary that he had stated in public addresses that adequate flood control is a national problem, the Missouri senator asked him whether states should be assessed 20 per cent or the whole cost should be borne by the federal government.

"I have no right to draw the conclusion that because I said it is a national problem that I bound myself to any definite plan," Hoover replied. "The matter of contributions is as complicated as the problem of engineering."

MEXICAN POLICE CAPTURE MUNITIONS MEANT FOR REBELS

Mexico City, Feb. 24 (AP).—Two men carrying munitions for rebels were captured by police aboard a train about to depart for Guadalajara. Five other gun runners, including a woman, escaped detection.

The police had been notified of the departure of the party and succeeded in capturing only Angel Morales and Anastasio Hernandez. They had a valise with 5,000 rounds of rifle cartridges in it.

Dispatches from Guadalajara today said three Catholic priests were captured by military authorities at Hostotipaquillo and Sayula, state of Jalisco, and sent to Mexico City. The priests, Carlos Rojas Reyes, Atanasio Torres and Juan Cisneros, will be turned over to department of interior officials.

COOLIDGE SIGNS \$100,000,000 PUBLIC BUILDINGS BILL

Washington, Feb. 24 (AP).—A bill authorizing additional \$100,000,000 for post offices and federal buildings throughout the country, was signed today by President Coolidge.

It increases by that amount the total authorization for public buildings, which is now \$255,000,000. Of that amount \$200,000,000 is authorized to be spent throughout the country and \$55,000,000 in the district of Columbia. The remaining \$15,000,000 is an unexpended balance which the treasury and post office departments may expend as they see fit.

ELLENVILLE TO VOTE ON SEVERAL QUESTIONS.

The annual village election will be held at Firemen's Hall, Ellenville, Tuesday, March 20, from 11 a. m. to 4 p. m., at which time three ballots will be used. One will elect the election of two trustees to replace E. G. Jensen and Emory TerBush, whose terms expire; the other will be to choose whether or not Ellenville is to have Sunday movie, and the third will deal with the raising of \$2,000 for a new road scarifier and grader, \$4,000 for police, \$1,000 for health and \$5,000 for concrete purposes. The amounts aggregate \$12,000.

WINNER OF LEGION HISTORY AWARD ADDRESSES LEGION SERVICE CLUB ON "YOUTH'S NEW RESPONSIBILITIES" AND WINS NEW LAURELS.

George C. Kent, boy orator extraordinary, and winner of the American Legion History Award, Thursday night delivered an inspiring address before the American Legion Service Club in the Legion Memorial Building. Before his speech, the 12-year-old Poughkeepsie lad told of his pleasure at winning the history prize and summed up the whole effort in a nutshell.

"If a boy tries hard enough," he said, "he can do most anything."

A full session of the Service Club listened to the remarkable youngster's speech on "Youth's New Responsibilities," which follows:

"Youth has one great element in its favor: It can live in the future! The world of tomorrow belongs to the young men of today, and they begin shaping that world now. No age has ever presented the tremendous opportunities of the present, but along with these opportunities are proportionate responsibilities. With the changing wheel of ambition, boys no longer regard the talkative professions as more important than the manual. They realize that there are gigantic tasks to be done and that these will be accomplished by deeds rather than talkers.

"Fashions change in ambitions as well as in clothes. A few generations ago it was the ambition of every boy in the country to be a president. That goal was stressed by adults and emphasized in schoolbooks; it reached a climax just about this time each year in the graduation addresses and graduation advice that soared from every school platform in the land. Nowadays, however, the urge to become president is less keen. Boys are realizing that there are other jobs to fill, that there is other work to do. The position of president has not become less important in their eyes, but the position of worker has become more important. To all its years of existence the United States has had only twenty-six presidents, but it has had hundreds of thousands of workers.

"The most important work that faces any youth today is making the world a better place to live in. Talk does not mean that he must become a preacher, or an agitator, or even a reformer, in the often accepted interpretation of that abused word. Nor does it mean that he must neglect his daily work in a search for some illusive thing which he can that he can bend his mind and his efforts toward improving the task he is on, the methods of doing it and the results obtained. As he ascends from task to task he will be amazed at the value of the work he has done, and its effect on his fellow men. Every task well done, however small, contributes to the betterment of the world.

"There are thousands of great tasks crying to be accomplished; there are millions of lesser ones. There is the money question. The youth who solves that will do more for the world than all the professional soldiers in existence, for he will have ended the chief cause of war. There is the matter of housing. The youth who devises a method for building better homes quicker and at less cost will lead his people to a greater Promised Land than did Moses. There is agriculture. Some day someone will turn farmers from dependence to independence through mass production. He will show them that nothing is produced on this earth to be wasted, that scores of growing things now discarded as worthless can be transformed into marketable, profitable commodities, and that the raising of food may in time become secondary to these very articles. There is transportation, communication, industry. Each has its tasks, great and small; tasks not alone for leaders but for helpers as well.

"Never before has there been an age so full of promise for youth, nor one so teeming with opportunities. Where one opportunity existed twenty years ago, a thousand do now. Yet these opportunities carry with them added responsibilities which must be met. Heavier demands are made on youth than ever before, more young men hold responsible positions, or are performing important work.

"The world is turning to Service as the solution for most of its ills. No longer is profit for a few considered the acme of endeavor. What will bring the greatest good to the greatest number?—that is the test. And it is being applied to all phases of human activity. It is the ideal which youth must hold before itself if it is to clear away existing barriers to progress.

"Other things too must be borne in mind as youth carries forward the work of the world. The curious superstition that manual labor is degrading must be done away with. Boys about to leave school for serious business of life should remember this: The man who does things is vastly more important to the world than the clerk who merely keeps a record of others' achievements.

"Youths have one tremendous advantage over their elders. They have the power of vision. They bring fresh eyes and fresh minds to old tasks. They are not tied down to traditions of the past. Neither are they slaves to the failures of others. Their concern is not so much what could be done, as with what can be done in the future. Twenty years from now the world will be theirs.

"What they make of it will de-

MARRIED 100 YEARS, DIES; LEAVES WIDOW 117 YEARS OLD.

Guttenberg, Poland, Feb. 24 (AP).—Having completed 100 years of married life Leib Feld, Poland's oldest Jew, is dead at this place, aged 125. His widow is 117 years old.

Official record of the commune shows that Feld, who was probably the oldest inhabitant of Poland, was born in 1802 not far from where he died.

BANDITS TAKE \$20,000.

St. Louis, Mo., Feb. 24 (AP).—Four men held up the Wellston Trust Company here today and escaped with \$20,000. Hiding in the bank during the night, the quartet greeted bank employees with pistols when they arrived to open the institution. At the points of guns they forced them to open the vaults.

depend on what they make of themselves and the opportunities of tasks—that are now before them. The boy orator said that he was indebted to Mr. Ford's Page for his material used in his speech. He delivered his speech without notes, without faltering, in a clear voice and with ease and eloquence.

LITTLE BOY KNOCKED DOWN BY AUTO ON THURSDAY

Charles Amato of 52 East Street reported to the police Thursday afternoon that while driving his car on Broadway, near Stuyvesant street, a boy, Joseph Kiolan, 11, of 111 Broadway street, ran across the street directly in front of the car. The lad was knocked down. He was examined by Dr. Joseph Jacobson, who found the boy had sustained a compound fracture of the right arm and a cracked nose.

Lindy Out of The Spotlight

Evidently Thinks His Personal Affairs Are No Business of the Public and Would Like to Be Left Alone to Attend to Them.

Colonel Charles A. Lindbergh, who has been conferring here with leaders of the aircraft industry, yesterday, it is believed, is launching into a business career, today mainly devoted to planning his plans.

The Colonel, whose name rumor persists in linking with a reported new Chicago-New York air transportation project, refused to grant interviews and expressed a desire to drop out of public life altogether. His report was reinforced by one from his mother, Mrs. Evangeline Lindbergh, who said the Colonel has "permanently retired from the public spotlight."

At the same time Edsel Ford, Major Thomas G. Lamphier, Stout Airways officials, and the group of St. Louis aircraft industry representatives who accompanied Colonel Lindbergh here were equally reticent. Members of the group were quick to deny published reports that the purpose of Lindbergh's visit here concerned a new airplane designed by himself and Major Lamphier, but they would neither affirm nor deny the rumor concerning the new Chicago-New York air line.

The report concerning the project, touched on vaguely by Major Lamphier on an address at Buffalo Tuesday night, received further impetus last night from a statement by Peter F. Plasecki, postmaster at Milwaukee. Mr. Plasecki said he had been advised of plans for formation of the new air line by the Stout Airways Corporation to operate passenger and mail express ships.

The proposed line, he said, would have its base at Chicago and would include Milwaukee, Grand Rapids, Detroit, Buffalo, Syracuse and Albany as terminals. A branch line at Montreal, he added, would meet the mail at Albany, with planes going from there down the Hudson to New York.

"CAPRICIOUS" CONDUCT COLBY DIVORCE SUIT REASON.

Paris, Feb. 24.—Passages from his wife's novels were before the Versailles court today as grounds for divorce in the suit brought by Bainbridge Colby, former American secretary of state.

Former President Alexander Millerand of France, appearing in behalf of Mr. Colby, said Mrs. Colby published a novel, "Green Forest", showing a politician, who in every way resembled her husband, in an unfavorable light. Then, shortly after this, M. Millerand stated, she published another book in which President Harding was attacked.

He advanced the "capricious" nature of the literary wife as grounds for divorce.

Plaiding for his client's freedom, M. Millerand also read a number of letters from Mrs. Colby, who was Nathalie Sedgwick of Stockbridge, Mass. He asserted that the temperamental of Mrs. Colby made life unbearable for his client.

Mrs. Colby did not appear at the proceedings nor was she represented. Judgment will probably be handed down in a week.

CLEAN BOOKS BILL AGAIN IN LEGISLATURE.

Albany, N. Y., Feb. 24 (AP).—The so-called "clean books" bill made its annual appearance in the Legislature today with introduction of the measure by Senator B. Roger Wales, Republican, of Broome. The measure is identical with that introduced last year by Assemblyman Walter S. Gedney, Republican, of Otsego.

Last year's bill and in some committee of the assembly, and in effect was overwhelmingly defeated in the Senate when a motion to discharge committee failed or adoption.

The Dales bill specifies that a test of any alleged indecent book shall be "whether on reading or the nature charged as unwarranted under this section is to deprave or corrupt those whose minds are open to such immoral influences, and who might come into contact with it." Inquiries may be based upon the whole or any part of such alleged indecent publications.

DADDY MUST PAY PEACHES \$4,344.44 ADDITIONAL.

Albany, N. Y., Feb. 24 (AP).—Edward W. Browning, wealthy real estate broker of New York city, must pay to his divorced wife Frances (Peaches) Heenan, an additional sum of \$4,344.44 for counsel fees and disbursements made by her in connection with the divorce proceedings, under a decision handed down by the court of appeals today.

The lower court had directed Browning to pay to his former wife \$1,844.44 on account of disbursements in the trial, and \$2,500 additional counsel fees. This order was sustained by the appellate division, from which Browning appealed.

DONOHUE BUYS VanWagenen, Inc.

Claude C. Donohue of 284 Washington avenue, for some time secretary and manager of the firm of S. B. VanWagenen, Inc., state road contractors, has taken over the remaining stock from the estate of Mr. VanWagenen and will continue the business. Mr. Donohue as president and manager of the corporation will carry on the same line of work. The corporation has recently completed a highway from Petersburg to the state line in Rensselaer county. The office of the company will be at 284 Washington avenue.

BOY FRACTURES ARM WHILE CRANKING CAR.

Lester Stokes, aged 12, son of Alexander Stokes of High Falls, while cranking his father's car, fractured an arm in three places between the elbow and wrist. The boy was taken to the office of Dr. H. J. VanWagenen, 17 John street, the city, who after an X-ray examination, attended to the fractures.

NEWBOYS ASKED TO MEET.

All newboys will find it to their advantage to assemble at the Broadway Theatre Saturday morning, 10 o'clock, as they did once before when required to do so.

Lights, Busses And Advertising Were Discussed

Better Bus Service and Better Street Lighting Were Some of Matters Discussed at Central Business Association Meeting—To Advise Central Section of City.

More and better street lights along Central Broadway; better bus service, and advertising the advantages of shopping in central Broadway were some of the matters discussed at the monthly meeting of the Central Business Association held Thursday evening in the Municipal Building on East O'Reilly street. The association now has a membership of 113 of which 70 are fully paid up, and a bank balance of \$1,171.20, according to the reports made at the meeting by Secretary Monroe Southard and Treasurer William O'Reilly.

Against Compulsory Insurance.

J. Edward Conway, chairman of the legislative committee, called the attention of the association to what was known as the "compulsory insurance" bill now being considered at Albany, and was of the opinion that the bill in its present form should not be made into a law as it would work a hardship on car owners. He said that under the provisions of the bill if there should be an accident between two cars and one of the owners was not covered by insurance that the owner would have to furnish a bond of \$5,000 with the motor vehicle bureau in case a complaint was lodged by the owner of the other car. Until such bond was furnished the license of the owner would stand revoked and also the car could not be licensed again. Mr. Conway said that while compulsory insurance would undoubtedly be all right the present bill would not remedy the evil it was intended to cure.

After a considerable discussion the association adopted a resolution that it was not in favor of the bill and the secretary was instructed to communicate with Assemblyman Millard Davis and Senator Arthur H. Wickes and inform them that the association was opposed to the passage of the bill.

Baseball For Central Section?

Mr. Gentile brought up the question of the association getting back of a baseball team made up of local talent. This team, if organized, is to play games Saturday afternoons on the Athletic Field. Mr. Gentile said he believed that a baseball game each Saturday afternoon would attract many to the central business section.

President Morton Lown appointed Mr. Gentile a committee of one to look into the matter and report back to the association.

Spring Advertising.

The question of a spring advertising campaign was also discussed and it was finally decided to authorize the publicity committee to carry out such a campaign this spring at a cost not to exceed \$300. That was the amount expended during the Christmas holiday advertising campaign.

Better Street Lighting.

The question of better street lighting on central Broadway was brought up by some of the members, and it was decided to urge the Central Hudson Gas & Electric Company, who are to install a new lighting system from the Rhinebeck ferry to the Washington avenue viaduct, to hurry the work of installation.

Better Bus Service.

It was brought out that the bus service at the central bus terminal would be greatly improved if bus lines that advertised leaving there did so. It was stated that some of the busses did not even stop at the terminal. After considerable discussion Secretary Southard was instructed to communicate with the bus committee of the common council asking the committee to see to it that the bus lines lived up to their schedules.

Racing and Exposition.

Secretary Louis S. Cos of the Chamber of Commerce called the attention of the association to the fact that Kingston Valley Trotting Association and that horse racing would be held here three days in August. In connection with the racing there was also to be an exhibition. He said that the newspapers had carried the proposed details of the meeting in their columns recently.

It was the opinion of the association that it would prove a big thing for Kingston and that the association should get behind the project.

President Lown appointed Harry Walker, J. David Schenck and J. Edward Conway as a committee to represent the Central Association.

Various other matters were also discussed at the meeting and an adjournment was taken.

BOY FRACTURES ARM WHILE CRANKING CAR.

Lester Stokes, aged 12, son of Alexander Stokes of High Falls, while cranking his father's car, fractured an arm in three places between the elbow and wrist. The boy was taken to the office of Dr. H. J. VanWagenen, 17 John street, the city, who after an X-ray examination, attended to the fractures.

Selected from the many excellent letters from Kingston people on "Why I Changed to Barking Dogs" as

Second Prize Award

I have been smoking cigarettes. I tried Barking Dogs because Joe sold me. Now I smoke Barking Dog regularly. They are a very sweet smoking cigarette and do not harm the throat. Every puff you take on a Barking Dog seems to get sweeter. That is because Barking Dog has the best of tobacco. I smoke at least five packs of Barking Dogs a week; now Barking Dog Cigarettes are like a good meal—the more I smoke the more I want to smoke. Joe sure did me a good favor when he gave me a Barking Dog Cigarette to try.

extra eggs extra cash

Now is the time every extra egg means more cash! And right now is the time you can make your hens produce more eggs—better eggs—by feeding Ful-O-Pep Egg Mash. Young or old hens, it makes no difference, will lay regularly if you feed this wonderful mash according to directions. All eggs will be larger, stronger-shelled—the kind that get best prices. And if you keep your hens on Ful-O-Pep Egg Mash they'll help you get the finest broods of chicks you've ever had. Now is the time! Feed Ful-O-Pep EGG MASH

K. H. S. Students Heard Chapple

In the regular assembly period in Kingston High School Thursday evening the students were addressed by Mitchell Chapple, editor of National Magazine and famous as a short story teller and writer. The audience heartily enjoyed his interesting talk in which he spoke of the famous American, Colonel Charles Lindbergh.

The speaker, who was graduated from college with an M. A. degree, expressed upon the listeners that his main aim in going to school was to make a "man" of himself. He illustrated the importance of this make-up factor by telling of the great Lindbergh.

Mr. Chapple first met the flying colonel when the latter was a small boy. The meeting was in an office where the youth had taken apart a typewriter and was being admonished by his father. Mr. Chapple sympathized with the boy and thus built up a friendship and produced a story from the event. Years after the story had been completed Mr. Chapple was privileged to see the hero at Roosevelt Field preparing to fly to Paris, a feat which startled the world.

The true courage of a man, much needed to succeed and possessed by Lindbergh, was clearly brought out by Mr. Chapple in describing his meeting with Lindbergh the day previous to the flight to Paris. He said he immediately recognized the determined characteristics of the tall blue-eyed hero, when he approached him on the flying field, as those he was impressed with when he saw the youth dismantling a typewriter years before. The student's were given a very clear understanding of the great flyer by the speaker when he told how the young man climbed into the "Spirit of St. Louis," alone, to fly across the ocean.

The instructive talk, which the students enjoyed and gained a wealth of good thoughts from, was generously interspersed with witty remarks that clearly showed why Mr. Chapple is famous as a writer.

CONGREGATIONALS AND ARTISTIC GIRLS TO PLAY

A hotly contested game is expected between the Congregationals and the Chichester Rangers at the latter's court Saturday night, February 25. The Rangers, who will start with the regular lineup, have been showing up well this season and dropped but one of fifteen games played. The Congregationals have 25 wins to their credit out of 32 contests played this year. The Kingston team will start the game with Cassell and Lebert, forwards; Rockefeller, center; Lawrence and Carpio, guards; with Sinapough and Carlo in reserve.

The Artistic Girls' team will meet the Lindy Five of Shandaken on the same night. The game will be conducted under girls' rules for one-half and during the other the regular rules used to govern masculine players will be used.

Both teams will leave the Congregational Church Saturday evening at 8:30 in the New York bus, Miss Kingston. A stop will be made at the General post office to pick up those who wish to make the trip. There will be dancing after the game.

Games have been booked by Manager Cassell with the fast-stepping Chichesters and the Hupmobile quintet. The date of games will be announced later.

KINGSTON, N. Y., FEB. 24, 1928.

The late Dr. Talbot Williams left an estate valued at only \$5,000, but he was given far more editorial space than any deceased millionaire, with the possible exception of Andrew Carnegie, who had dotted the world with libraries.

Chief Marvin, of the United States Weather Bureau, is quoted as saying that long-range weather predictions are no better than mere guesses. Some of the short-range ones look like guess-work, too, after the event—or the failure to be an event.

Senator Carraway of Arkansas has introduced an anti-lobby bill and Senator Walsh of Massachusetts strongly favors regulation and control of lobbying, which he says "was never more flagrantly exercised than now." But real reform in this direction will not be easy, with the representative of "more than 150 lobbies" patrolling the capitol at Washington and with such powerful ones among them as the Anti-Saloon League.

"OLD" IN THE THIRTIES.

Being asked why, in his gripping and delightfully humorous story, "Friends of Mr. Sweeney," he made his hero almost an old man at thirty-eight, Elmer Davis has written to explain as follows: "I depicted Mr. Sweeney as senescent at thirty-eight, because when I wrote the first draft of 'Sweeney' I was just turned thirty-four and I pictured myself at thirty-eight as senile, decrepit, all but exanimate." To this surprising and near-incredible statement Mr. Davis is pleased to add: "And now that I am thirty-eight and more than just a little bald, I don't know that it was such a bad guess at that."

His years must have laid a rather heavy hand on Elmer Davis, if he feels "old" at thirty-eight, when most men are in their prime both physically and mentally, particularly in view of his readiness to hail slight baldness as a sign of rapidly approaching senescence in a period when no few men begin to develop bald spots in the twenties. The point of view of Elmer Davis, in fact, recalls that of some of the juvenile writers. There is or was a one-act play, for example, written and acted by a twenty-year-old or so youngster, in which "an old man of fifty" was depicted with all the characteristics of a tottering ancient of ninety.

A SCORCHING REBUKE.

The more sacred a cause is believed to be, the more scrupulously straightforward and clean-handed its crusaders need to be lest they do damage to their own battle armor. This responsibility may rest lightly on many ordinary prohibition enforcement agents, and may be disregarded as it too often is, without doing serious harm to the prohibition ideal itself. But it is another matter when a high officer of the Anti-Saloon League, and a clergyman at that, is careless as to whether his methods are above reproach and is deliberately reckless in his charges. In consequence of his failure to play fair and walk straight, the Rev. Dr. M. R. Poulson, Superintendent of the New Jersey Anti-Saloon League, has received a rebuke which he will long remember. A jury found him guilty of libel when he failed to support his sweeping charges of corruption against two judges, and the trial justice, in passing sentence, said:

Instead of manfully admitting your error, you came into court and pretended to produce evidence to support your charges. In this you have utterly failed. My first impulse was to impose a prison sentence upon you, but I am mindful of the fact that you are a minister of the Gospel and your action may have more in it of misguided zeal than of viciousness.

Although protected by his profession in this instance, Dr. Poulson may well reflect that another time he would be wise to depend, not on his cause or on his clerical collar, but only on the truth.

UNCHANGING HUMANITY.

In spite of our boasted progress and our unquestionably great advances in marvellous inventions, the reflecting observer finds cause to wonder whether humanity has undergone any essential change, in the course of some thousands of years.

THAT BODY OF YOURS

ARTIFICIAL SUNLIGHT FOR EAR TROUBLE.

When you see what the sun can do to plant, tree and flower, how in a few hours there is actual growth and development, you do not wonder that research men endeavored to learn just what special qualities the sun possessed that gave it such power.

As you know, they discovered that it was due mostly to the ultra violet rays, and they have been able to make glass for house windows through which these rays can penetrate.

Also they have been able to construct lamps that give off these same ultra violet rays.

You have been reading about the great help this lamp (or artificial sunlight as it is called) has been rendering to poorly nourished children, afflicted with rickets or softening of the bones.

Also of how these rays have been used on cows to enrich their milk, and even upon dried milk powder, with the same result.

It is not to be wondered at therefore that research men are trying to find new uses for these rays.

Drs. Lussmann and Bendove of Denver, made a study of twenty-five patients with chronic middle ear trouble, or otitis media, as it is called, and the effect of these ultra violet rays thereon.

You will remember that it is in the middle ear that you find those little bones that transmit the vibrations of the drum of the ear across the middle ear, to the inner ear, from whence they are transmitted to the brain.

Trouble in the middle ear, the accumulation of pus usually, is, as you can see, likely to interfere with those little bones and their ability to transmit the vibrations across the chamber.

However, by the use of the ultra violet rays there were only six of the twenty-five patients who failed under the treatment, and these were old cases where the chronic inflammation had caused an actual destruction of the parts.

All the other cases showed a marked improvement.

What does this mean? That just as the rays of the sun mean life and development to tree and plant, so also do they stimulate cell activity in that body of yours. It would seem that in these days when we spend so much time indoors that the time may not be far distant when we'll either have a lamp of our own, or we'll go to some place where they give sun baths, in order to get our daily supply of the sunlight.

Getting artificial sunlight is like taking massage instead of exercise. They are both good for us, but it certainly is lowering our morale to take them in this way. Of course if we are not well, they would be good treatment.

Long and Short of It

The late Mrs. Mary Emery of Cincinnati, whose \$500,000 art gallery was bequeathed to the Cincinnati Art museum, was a generous patron of painters, poets, sculptors and musicians.

Once, at a Cincinnati tea, a clergyman praised Mrs. Emery for the position she had bestowed on an aged novelist.

"Oh, well," she said in answer, "art is long, but artists are always short."

NEW PARTY

New Paltz, Feb. 24.—U. S. Court Judge I. O. P. will attend church services in the Methodist church at New Paltz at 11 o'clock on Sunday morning, February 25.

DAILY LESSONS IN ENGLISH.

By W. L. Gordon.

Words often misused: Do not say "less" is the most clever man of the two." Use "more" when comparing two persons or things.

Often mispronounced: intransitive as to "head," not as "I in head."

Often misapplied: usually a verb.

Synonyms: suffice, satisfy, content, surfeit, satiate.

Word study: "Use a word three times and it is yours." Let us increase our vocabulary by mastering one word each day. Today's word: Spurious; not genuine; false. "It was the vanguard of a spurious civilization."

TELL HOW TO SAVE

ON COST OF FUEL.

Whether we believe in the ground hog's shadow or not, there will undoubtedly be plenty of winter yet. In view of this fact, the New York state college of home economics at Ithaca, N. Y., gives some suggestions on how to run a furnace. The college says a lot of fuel is wasted every winter in New York homes by persons who do not know how to manage their furnaces.

One of the common causes of waste with all heating systems is dirty boiler flues. An eighth of an inch of soot on the heating surface of the furnace or boiler, is estimated will increase the coal bill twenty per cent. To prevent this, clean the flues once a week with a long-handled wire brush. The chimney needs cleaning yearly, or oftener when soft coal is used. This will increase the draft and lessen the fire hazard.

Another method of saving fuel is to keep the air in the house moist. At least two degrees lower temperature are needed when the air is moist. Some people claim that they feel quite comfortable at even ten degrees lower. Moist air is also better for health. Ten gallons of water a day are not too much to evaporate in a medium-sized house.

A house with a hot air furnace needs a big water pan with a large surface exposed. The pan should be set well up in the warm air space to allow rapid evaporation, and it should be placed over the combustion chamber with its bottom at least two inches above the top of the chamber. The pan may be kept filled automatically with a float valve device. Pans of water kept over or inside the registers are of some help.

For steam or hot-water heaters, evaporation pans may be bought which are designed especially for the purpose and which usually hang on the back of the radiator. Each radiator should have one such pan, and to be effective, it must be kept filled. Wicks or pads of absorbent material hanging behind the radiator with one end in the pan of water increase the evaporation. While these pans are of some help, they do not usually evaporate more than a small fraction of the water necessary for best results.

Official Shields
Violation of Law

Albany, Feb. 24.—Charles A. Harnett, Commissioner of Motor Vehicles, called attention today to a growing abuse in various parts of the state where privately owned automobiles are displaying state or city shields. The use of official insignia on such cars is declared to be a misdemeanor by section .958 of the Penal Law. Complaints received by the Bureau of Motor Vehicles are to the effect that some drivers who use official shields on private cars in violation of law recklessly ignore traffic rules and signal lights, jeopardizing the lives of pedestrians and the occupants of other cars on the highways. Commissioner Harnett has asked the cooperation of city authorities in stamping out this abuse.

"Such cars have been a genuine menace," Mr. Harnett said today. "I am calling on police authorities of the state to see that the evil is promptly checked. There is no excuse for the disregard of regulations adopted in the interest of public safety, unless there is an emergency, such as a fire department or police vehicle or an ambulance in actual emergency service. I believe, however, that such vehicles are not the dangerous offenders."

"The driver of a privately-owned car bearing some so-called official seal, who ignores traffic rules is the real menace. What privileges such drivers expect to secure from the use of these shields is difficult to imagine. Shields denoting that cars are in operation on governmental business do not give drivers any special privileges or immunity from traffic regulations, and operators who unlawfully display state or city insignia on privately owned cars should be prosecuted. Certainly no public official will countenance the willful violation of traffic regulations or the jeopardizing of human life and limb in operation of such vehicles."

To Prevent Mildew

To prevent shoes from mildewing in a dark closet during warm, damp weather keep them on shoe trees or stuffed with paper and placed in a well ventilated, dry, light place. If any mildew is found wash it off with warm water and soap, or simply wipe off and dry the leather well afterward.

"HIGH GRADE BUT NOT HIGH PRICED"

It Can't Be Done!

If a merchant places a fair price on an article in the first place, he cannot sell at big discounts. He must have the profit on before he can take it off. We have adopted the policy of making a price that is fair to the customer at the start. It saves making up a new excuse for a Special Sale every few days, which we believe to be the most honest policy. We claim, too, and do sell Home Furnishings at as low a price, the year round, as goods of equal quality can be sold.

This is the whole truth. Which method do you prefer?

Chain That Rattles

Howard P. Seese, forest ranger in the Spruce state forest in Pennsylvania, possesses a chain more than seven feet long made from the rattles of the snakes he has killed during patrol duty. Seese says that a rattler's age cannot be told by the number of rattles, as from two to four may be gained in a single year.

Flashes of Life Sketched in Brief

(By The Associated Press)

Tucson, Ariz.—Jack Thompson, 31, ex-con, the ex-husband of a member of congress, was sentenced to one year with hard labor for the murder of a woman in the border about some time ago. He is interested in the case.

New York—It seems an indignity to a fellow who fought in the ring and later came with Caruso and Melba to be restrained, but that's the case with him, says Giuseppe Interillo, who was once known as Young Sharkey, a fighter before he became a tenor in opera. On complaint of another tenant that she was rattling the dishes, a magistrate ordered Giuseppe to confine his practice to the short stretch between 8 a. m. and 10 p. m.

Atlanta—Jimmy Walker is to run a horse. Contributing to the use of his name, the mayor of New York told E. B. McLean: "If he's not fast, he will cost me money."

Berlin—A film depicting the life of Martin Luther has been prohibited in Batavia in response to Catholic protests.

London—Showing of a German film entitled "The World War as Seen Through German Spectacles" has been postponed. The argument over the Edith Cavell movie has died down. Georges Clemenceau has told a correspondent of a London paper that he sees no reason why any film dealing with actual facts of the war should be prohibited.

New York—There are likely to be some erudite taxi drivers in Flushing, borough of Queens. While waiting for fares they hold spelling bees. The last survivor takes a pool, to which all chip in one simoleon.

Princeton, N. J.—Good mixers, graduates of Princeton University, have an opportunity to receive \$2,500 a year with no study involved. Mrs. Edward Palmer has donated two scholarships the recipients of which must go abroad and mingle as much as possible with people of other nationalities.

CRIME BILLS CAUSE

LIVELY DEBATE IN ASSEMBLY

Albany, Feb. 24 (P).—The Assembly began its annual fight yesterday on the state crime commission's fence bills, aimed at the receiver of stolen goods as the "master thief." One of them, which would require the purchaser of property which he suspects to be stolen to make reasonable inquiry as to this suspicion or be held presumably guilty of receiving stolen property, was put over until Monday night. The other, permitting the thief to testify against the receiver of stolen goods, was advanced to the order of final passage.

The bills were defended by Burton D. Esmund of Saratoga, vice-chairman of the Crime Commission, and Walter S. Gedney of Rockland, a member of the commission. Republicans and Democrats joined in an attack on the bill which was laid over.

Edmund D. Jenks of Broome, chairman of the judiciary committee, declared the measure was poorly drawn.

"Why, under this bill," he said, "if you went into a grocery store and bought half a pound of codfish without asking the clerk if it was stolen you would be a thief."

This bill would make thieves of everybody in the state," declared Louis A. Cuvillier, Democrat, of New York. "If the judges would do their duty in convicting and imposing sentences we would not have to have all these new laws. Don't put all the blame for the crime situation on the Legislature. There are laws sufficient now to meet the situation if the judges would do their duty."

Another of the crime commission bills, designed to permit the district attorney in a criminal case to comment upon failure of the defendant to take the stand in his own defense, was put over until Monday. A bill reorganizing the probation system in the state was recommitted on the order of third reading by Mr. Esmund for further amendment.

Boost for Election Officials

One of the bills to be advanced to third reading by the Assembly was a measure proposed by Edmund F. Cooke, Republican, of Erie, to amend the town law by increasing the salary of inspectors of election from \$6 to \$12 a day. A number of highway and automobile traffic bills were considered. After considerable desultory objections on the ground of possibility for misinterpretation and misunderstanding a bill was advanced to third reading which would set up a uniform system for traffic lights and signals throughout the state.

NEW PALM

New Palm, Feb. 23. Miss Florence White was leader of the Epworth League meeting at the Methodist Church Sunday night. February 23. Next Sunday evening will be the initiation of new Epworth League members.

Eddie LeFevre, Jr., son of Mr. and Mrs. Eddie LeFevre, died at the City of Kingston Hospital Friday evening, February 17. He had been confined to the hospital for some time.

Mrs. Fred Deyo of Main street had the misfortune to break her leg on Saturday.

Mr. and Mrs. Arthur Ingraham entertained the following guests Monday evening: Mr. and Mrs. LeWitt, Van Kleef and Mrs. Howard Van Kuren of Monticello and Mrs. Harry Van Kleef of Hick Falls.

The Rev. and Mrs. Theodore Bradley were called to Hartford, Conn., last week by the illness of relatives.

March 20, the Newman Club play, "The Patsy," will be given in the Colonial Hall.

Alan Zimmerman was the leader of the Christian Endeavor Society at the Reformed Church Sunday evening, February 19. The topic was "The teachings of Jesus up to date."

Mrs. H. Elliott attended the chicken dinner at the home of Mr. and Mrs. Alvina Stillier Thursday night at Highland in honor of Mr. Stillier's birthday. There were a number of guests present and cards and music were enjoyed.

Miss Melvina Hammond was a guest of Mrs. Kathryn Palmateer at Highland over the week end.

George A. Oates is attending a convention of hardwaremen at Philadelphia this week.

The party given by Dean Fletcher and the Outing Club of the Normal was delightful and well attended despite the fact it was the beginning of the short holiday of last week and so many students went home.

Miss Edna Geister was a charming entertainer and kept the crowd busily engaged in fun making and enjoying themselves. The gymnasium was decorated with white crepe paper stripes and red valentines were tucked everywhere. After refreshments had been served Miss Geister led in a gay farewell march and the party was drawn to a close in a rollicking dance.

At the regular meeting of Huguenot Grange on Saturday night, February 18, third and fourth degrees were conferred.

The February meeting of the Dutch Guild was held Thursday afternoon at the home of Miss Bessie DuBois. The business meeting was followed by a fifteen minutes discussion of missions. Miss Leona LeFevre told of Christmas time at the Bowers Mission. Mrs. Clement gave an interesting description of the work at Ferris Seminary. She also mentioned the fact that only the day before the Lawrence Missionary Society in Albany had dedicated a clock to Ferris Seminary in memory of her mother. After the discussion the usual social time was enjoyed. The hostesses, Miss Bessie DuBois, Mrs. Leston DuBois, Mrs. Reynolds and Mrs. Kirkpatrick served scalloped oysters, saltines, olives and coffee. Before the meeting adjourned the Rev. E. D. Miner spoke to the Guild of some future plans.

The funeral of Eddie LeFevre, Jr., was held Sunday, February 19, in the Reformed Church. Interment in New Palm cemetery.

Miss Gertrude LeFevre spent a few days of last week in Poughkeepsie.

Mrs. Lanetta Eltinge DuBois is spending a few days with her niece, Mrs. Laurence Osterhout on Orchard Heights.

Mrs. Margaret Ann Freer an old resident of this village, died at the home of her son, William Freer, in Ashbury Park last week. She was buried in the New Palm Cemetery on Tuesday.

Mrs. George A. Oates delightfully entertained 16 guests at luncheon and bridge on Wednesday. The prizes were won by Mrs. Robert Deyo and Mrs. A. B. Bennett.

The O. M. N. Society of the high school had a hot dog sale on Thursday. They are raising money for the annual trip to New York city.

WINDOW IN SIGNBOARD DISPLAYS FURNITURE

Boston, Feb. 23 (P).—A signboard has started a fad in the show-room class in Boston.

A furniture store in the back of an ordinary building has started an "open house" for its customers. In the front, the store has a large glass window, and in the rear, provided with a large light, is a "show room" for the display of its goods. The window is a "show room" for the display of its goods. The window is a "show room" for the display of its goods.

Fish-Leather Harness

Fish leather as a substitute for leather from India is being used in the United States and Japan for many equipment and harness. The leather, which is said to be as serviceable as hide leather, is also cheaper. It is made principally from the skins of sharks, porpoises, and dogfish.

Light Colors for Walls

It has been advocated that buildings in groups should have light colored outer walls, so that the light reflecting surface may benefit the lighting conditions in the neighboring buildings.

Together the doctors examined their patient and then retired to discuss their views, but unfortunately the door did not close properly and their conversation floated audibly to the man in bed.

"You're wrong!" said doctor number one.

"I'm right," protested doctor number two.

Here the patient groaned loudly, and the doctors, realizing the necessity of the case, dropped their argument, but not before doctor number one had made a parting shot.

"Go your own way," said he. "But I'll prove you were wrong at the post mortem!"

A farmer's daughter started to practice singing. One day her father came in unexpectedly.

"What's that extraordinary noise?" he inquired.

"That, dear," replied his wife, proudly, "is Jane cultivating her voice."

"Cultivating? Hah! That ain't cultivating—that's harrowing!"

Advice to the young man: When you see a pretty girl it is all right to stop and look. After you marry her you will have plenty of time to listen.

Brick Proves Durability

A chimney of brick 125 feet in height stands like a sentinel over the abandoned mining town of Belmont, near Tonopah, Nev. This chimney, erected in the boom days of the town, showed the spirit of the men who sought better living conditions in these communities that sprang up overnight.

Brick was hauled from Sacramento, a distance of more than 500 miles, by means of ox teams. Withstanding the attacks of weather for 55 years, this chimney is in as good condition now as it was when erected by the gold-mad first inhabitants of the town. It gives mute testimony to the durability of common brick.

Didn't Know Him

Margie, aged five, was surprised when, after her mother read her a story from a humor column, she told the little girl the story was about herself. The story told briefly of Margie's interest in birthdays and how on February 22, when her older brother told her that it was George Washington's birthday, Margie had asked excitedly:

"What did he get?" And her mother had insisted that she was the little girl that made the remark, Margie said, disgustedly. "Why, mother, I didn't say that. I don't even know George Washington!" — Indianapolis News.

Income Tax in a Nutshell

Tips For Taxpayers.
No. 11.

In determining net income there are allowed certain specified deductions from gross income, such as business expenses, losses, interest paid, bad debts, depreciation, rent, contributions, etc.

Deductions for business expenses must have certain qualities to be allowed. They must relate to a business, trade, profession or vocation in which a taxpayer has invested time and money for the purpose of a livelihood or profit. A taxpayer may conduct more than one business and claim a deduction for the business expenses of each.

Typical business expenses of a mercantile establishment which are deductible in a return of income are amounts paid for advertising, hire of clerks and other employees, rent, light, heat, water, telephone, insurance, and delivery expenses. The expenses of a manufacturing business include labor, raw materials, supplies, repairs, light and heat, power, selling costs, administration, and other similar charges.

A professional man, such as a lawyer, doctor, architect, dentist, etc., may deduct the cost of supplies used in his practice, expenses paid in the operation and repair of an automobile used in making professional calls, dues to professional societies, subscriptions to professional journals, office rent, cost of light, fuel, water, and telephone used in his office, and the hire of office assistants.

The farmer may deduct all amounts paid in the production, harvesting, and marketing of crops, including labor, cost of seed and fertilizer used, cost of minor repairs to farm buildings (other than his dwelling), and small tools used up in the course of a year or two.

**FEDERAL STANDARD
SOUGHT FOR PLATINUM.**

New York, Feb. 24 (AP).—A federal stamp of approval on platinum is being sought by platinum-smiths and jewelers of the United States in an effort to safeguard the platinum purchaser just as gold and silver buyers are now assured of quality by "sterling" or karat marks.

State laws regulating the quality of platinum have been passed this

year in Illinois and New York, and a bill is now pending in Congress to make the safeguard nationwide.

Platinum, the most precious of metals, is mined in very small quantities, the annual output being about 100,000 ounces, less than 10,000 pounds. Its scarcity is in itself a temptation to reduce the quality by the introduction of alloys.

Today 95 per cent of the platinum mined is used for jewelry, while the rest is turned over to science. Electricity, physics, chemistry, radio, medicine and dentistry have found the metal indispensable. Its great strength and its pliability make it valuable in delicate experiments that cannot be performed with gold or silver.

Most of the skilled platinum-smiths in the world are in the United States, most of them in New York and Newark, N. J. While little of the metal is mined in this country, the nation's vast wealth makes it the foremost market.

For many years the chief source of platinum was in the Ural mountains in Russia, but the supply has declined there in late years, and now Colombia, in South America, leads in output.

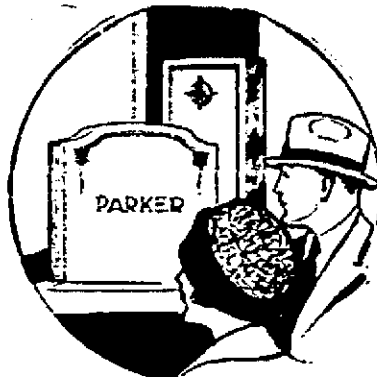

Evidence of the use of platinum in South America centuries before the coming of Columbus have been discovered recently. Earthenware, rings and pins are in excellent condition.

Early Spanish adventures in South America used platinum to counteract the accepted gold and silver coins of European countries until these nations placed the penalty of death upon those who used such methods.

Lost Art of Individuality

There is a certain individuality in the dress of a woman. It is the result of her own taste, her own personality, her own sense of style. It is the result of her own choice of material, color, and cut. It is the result of her own sense of proportion and balance. It is the result of her own sense of rhythm and harmony. It is the result of her own sense of beauty and grace. It is the result of her own sense of individuality.

WHEN CHILDREN FRET

It isn't right for the little tots to fret and they wouldn't if they felt right. Constipation, headache, worms, feverishness, bad temper, all of these things are the result of a child's fret. They need the pleasant remedy—**WATERBURY'S LAXATIVE**. It is a natural, safe, and effective remedy for all these troubles. It is a natural, safe, and effective remedy for all these troubles. It is a natural, safe, and effective remedy for all these troubles.

ELEANOR GUNN ON FASHIONS

Handbags and Shoes Continue to Fraternize—Both Are of Kid and Should Carry Out the Color Scheme of the Costume.

Paris. After scouting about the highways and byways of Paris to discover what sort of handbags we may expect to carry in the spring, the net result is that bags will be rather large, usually mounted on a frame, and generally of leather. Combinations of leather with fabric seemingly arouse little enthusiasm. For "best" women show a preference for antelope and suede, mounted handsomely with maroon, crystal, or metal. For general utility, they retain a partiality for leather, in colors to correspond with the key color of the ensemble.

Large Velvet Flowers Resembling the Thorn-Apple Blossom Entirely Cover the Small Toque Above, of Black Silk Jersey, from Agnes. The Flowers Are All Black Except One at the Right, Which is White. Although It May Be Replaced by Any Light Color.

Agnes Uses a Great Deal of Parasol and Has Already Commenced to Make Some Larger Hats, Like the One Above, Which Is a Large Capeline in Natural Parasol, Trimmed with Satin Cords, Striped in Brown and Beige.

Shoes are greatly simplified and are in accord with the preference for sports wear that is everywhere manifested. Heels are lower, straps less complicated, and while combinations are again in order, sensational footwear seems to be taboo. For evening, shoe buckles show the influence of Chanel, and when of rhinestones, are no longer made of deeply-set small stones, but on the contrary are very large and brilliant, and often set in black, which, of course, enhances these characteristics. Satin, suede, and nacre kid are the first, second, and third choices for evening. Heels, even for such shoes, are less extreme than formerly.

OUR DAILY PATTERN.

A Dainty Frock For a Little Girl. 6015. Dimity, batiste, crepe, pongee or crepe de chine may be employed in the making of this design.

The pattern is cut in 3 sizes: 1, 2 and 3 years. A 2 year size will require 1 1/2 yd of 36 inch material. To face collar, cuffs and tabs with contrasting material as illustrated will require 1/4 yd 27 inches wide.

A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Fashion Book Notice. Send 15c in coin or stamps to The Freeman for our up-to-date Spring and Summer 1928 Book of Fashions showing color plates, and containing 500 designs of ladies' fashions and children's patterns, a concise and comprehensive article on dressmaking, also some points for the needle illustrating 20 of the various simple stitches, all valuable hints to the home dressmaker.

Crepe Frocks in Paris Limelight

Material Easily Holds Lead Over Others—Taffeta for Spring Wear.

While there is still little or no cause to complain of monotony in the dress world today, silhouettes are so varied, and details of trimming and of cut so numerous, that one can scarcely charge monotony on these scores, but it does seem that women have fallen into the habit of following the line of least resistance by invariably choosing crepe as the material for their dresses.

The term crepe, observes a Paris fashion authority in the Kansas City Star, is elastic enough to include flat crepes and crepes with weaves that, while perhaps not identical with every other weave so labeled, are to all intents and purposes the same. There is, of course, the variation of crepe satin, but one so frequently finds it combined with flat crepe that one regards it merely as an incidental variation. The crepe dress has become as omnipresent as the felt hat. They keep each other very close company.

One cannot know Paris dressmaking circles without hearing rumors of taffeta for spring, yet at the more recent showings the taffeta dress was outnumbered so many times by dresses of crepe that it failed to be impressive. Anyway, taffeta is a possibility—especially since we may expect to be more or less clad in navy, no matter what the material, next spring. One is usually safe in predicting that the Paris color of one season will become the American color of the next.

While many of the silhouettes of the day do not require the crisp quality of taffeta, others do. The robe de style, both of the long, full-skirted type peculiar to Lanvin, and the more

Charming New Afternoon Frock of Soft Gray Sheer Crepe.

extreme type with which Boulanger has scored, are both at their best in taffeta. Lanvin leaves no doubt in one's mind as to her preference for black taffeta with silver, nor for that matter does Boulanger undervalue black taffeta, although making use of colored, even figured, silks.

A charming frock made for an elegantly dressed French woman who is assembling a wardrobe for Cannes is unusual because it combines a figured taffeta and a chiffon in the same colorings and designs. On a black ground are conventionalized flower motifs in such intense colors as green, red and blue.

It is much too early to speak with authority on the status of prints for spring, but one has the feeling that they are to be used. Visits to the Paris fabric houses justify this belief, for the prints in preparation are quite charming and much more wearable than great flowered effects. Designers have apparently enjoyed playing with the polka-dotted theme, although there is always some irregularity to assure interest. Resort frocks fashioned of two large handkerchiefs or scarfs are another charming conceit. These are being ordered freely for the Riviera.

Chic Tailored Dresses

No More Than Sweaters

The greater of other years was quite different from its namesake of today. The new tailored dresses when closely examined, prove to be no more than sweaters, knit of angora or silk-and-wool yarns, worn with skirts of crepe.

They are more elaborate than the humble sweater of yesterday, which was more practical than lovely. Jean Patou has designed a number of costumes, including pull-overs, which he calls beach ensembles. But with their very tailored shoulders, their trim crepe skirts flared at front or side, and their fur-collared coats, they are worn for many daytime occasions in town.

Many are of white, of pale green and of beige; and there are others of navy blue and dark greens. All concentrate their contrasting color in horizontal bands at the hipline, and in narrow leather belts. Some have bands of crepe at the neckline, and applique in zig-zag and triangle design at the hips.

Some women age so young

YOU'VE known them . . . women who start out in life radiantly fresh and alive. . . Then something happens. Almost before you know it—their bloom and freshness have gone. . . Youth without health! What a pathetic thing it is! Pinched, wan cheeks and pain-dulled eyes when, by every right, they should be just beginning to live!

Constipation wrecks health and happiness for thousands of women and men. Stealing beauty. Thieving vitality. It is the cause of untold disease and suffering.

And more's the pity when it can be so surely prevented. Kellogg's ALL-BRAN is guaranteed to relieve constipation safely. To prevent it ever beginning its deadly work.

It takes ALL-BRAN to be 100% effective

Kellogg's ALL-BRAN is rich in bulk—and it is "bulk" that relieves constipation. It absorbs moisture and carries it through the alimentary canal. Gently distending the intestines—sweeping out poisons and wastes. In a part-bran product, there is seldom enough bulk to do this work effectively. That is why

**Kellogg's
ALL-BRAN**

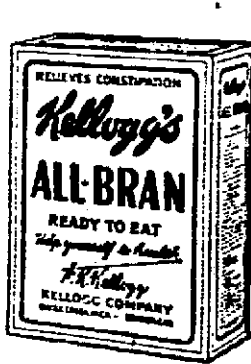

doctors recommend ALL-BRAN. Because it is 100% bran.

Totally unlike habit-forming drugs

ALL-BRAN is infinitely better than dangerous pills and laxatives—which become useless unless the dose is constantly increased. A naturally healthful cereal. Delicious with milk or cream—with fruits or honey added. Use it in cooking too. Sprinkle into soups. Mix with other cereals. Eat two tablespoons

fuls daily—chronic cases, every meal. . . Be sure you get genuine Kellogg's—the original ALL-BRAN. Don't risk part-bran substitutes which, at best, can be but partially effective. ALL-BRAN is sold by all grocers. Served at hotels, restaurants. On diners. Made by Kellogg in Battle Creek.

Guaranteed! Kellogg's ALL-BRAN is sold with this distinctive guarantee. If it does not relieve constipation safely you will get your purchase price.

Origin of "Kidnaping"

The word "kidnaping" is a combination of two English colloquial words, kid, meaning a child, and the verb nap, somewhat like our word nab, a slang term for seize. It was originally used in England to designate one who carried off children to work on plantations in the American colonies.

In Case of Fire

Children should be taught plain facts concerning fire dangers, impress upon them the folly of running about if their clothing is on fire. Teach them that it is better to smother the flames with a rug or quilt rather than fan the flames and spread them all over the body.

Famous Spanish Palace

Escorial, or El Escorial, is the name of the palace of the king of Spain. It is situated among the hills, 30 miles northwest of Madrid, the Spanish capital. In its wind-swept situation it has an austere appearance. It was built by Philip II, the king who cruelly persecuted the people of Holland.

THE JOHNSON.

News of Interest to Members of Fraternal Societies.

The social meeting of the Junior Catholic Daughters of America, scheduled for tonight, has been postponed indefinitely.

Wichita Council, No. 176, Degree of Pochontas, will hold a regular meeting in Odd Fellows' Hall tonight at 8 o'clock. It is desired that all members attend.

On Friday evening, March 2, Right Worshipful Nellie C. Freer, district deputy grand matron, and Right Worshipful William A. Van Valkenburgh, district grand lecturer, will officially visit at the Masonic lodge rooms, corner Strand and Broadway. A very large attendance is expected from the Greene-Clutter District. Master Masons are invited to attend this meeting. At the close a banquet will be served.

The following were nominated for

Office by Kingston Lodge, No. 550, Benevolent Protective Order of Elks at a meeting held by the lodge on Thursday evening, February 23: Exalted ruler, George H. Bart, Woodstock, who is deputy clerk of the board of supervisors, and who is esteemed leading knight; John F. Edwards was nominated for esteemed leading knight; Harry Beck, esteemed loyal knight; Charles A. Ryan, esteemed lecturing knight; Charles J. Mullin, secretary; Thomas J. Kennedy, treasurer, they having served as such officers for several years; Howard Van Kleeck, tiler; P. E. R. Henry Baranaka, trustee for three years to succeed Mayor Dempsey, whose term will expire and because of his duties as head of the city government declined a re-nomination. Present Exalted Ruler William Edelmuth was nominated to go to the grand lodge convention as delegate; Martin Cahlin, P. E. R., alternate, he having attended the grand lodge since 1915. The election of those nominated will take place in March.

FRENCH PHYSICIAN CLAIMS

DISCOVERY IN OBSTETRICS

Montpellier, France, Feb. 24 (AP).—Motherhood without pain or danger and delivery at the exact time chosen by the attending physician are claimed by Prof. Paul Delmas of the Maternity Hospital to be ensured by a method of mediocrity anaesthesia. Describing his discovery to the faculty of medicine, Prof. Delmas said that observation of forty cases demonstrated the method was rapid and without risk for mother or child. Other professors who watched the application of the method testified to the rapidity of the operation, the absence of complications and the facility of delivery.

Strength of National Guard. Washington, Feb. 24 (AP).—Present strength of the country's national guard units, federally recognized, the war department announced today, totals 124,092 officers and men.

ELLENVILLE

Ellenville, Feb. 24.—The last Lutheran Church sacrament supper of the season will be held on Tuesday evening, February 28, from 8 to 8 o'clock.

The Sophomore Class of the local high school made over \$40 at their cake sale held at Hiram's grocery last Saturday afternoon.

The local banks, the postoffice and library were closed Wednesday in observance of Washington's Birthday. The schools and places of business were open.

Wawarsing Chapter, O. E. S., will celebrate its 500th communication on March 19th.

A son, Philip, was born to Mr. and Mrs. DeWitt Chamberlain of Canal street on Saturday, February 24, at Veterans' Memorial Hospital.

Miss Mae Van Deusen will close her millinery shop on Canal street on or about March 15. Miss Van Deusen is undecided as to her future location or plans, but announcement of these will be made to her patrons at a later date.

Wood and Russell are enlarging their store. A large back room which, until recently, has served as a store room, is being remodeled for this purpose.

At the evening of games given by Wawarsing Chapter, O. E. S., at the Masonic rooms last Friday evening, prizes were won as follows: Bridge—Mrs. John Hoffman, Miss Belle Parker, G. H. Northrop and Frank Douglas; pinocle—Mrs. Mark Horton, Miss Annie Richards, Harry Miller and Dr. C. H. Van Kirk; dominoes—Mrs. Lewis Piper and Philip Keller.

Miss Lillian F. Penney was in charge of the patriotic exercises given in the high school auditorium on Monday morning. The program was as follows:

Song: America the Beautiful
Flag Salute
Song: The Star Spangled Banner
Scripture Reading and Lord's Prayer.
Song: Columbia the Gem of the Ocean
Address: George Washington
H. W. Coons
Song: Battle Hymn of the Republic

Miss Florence Blum, daughter of Mr. and Mrs. N. Blum, former residents of this village, has just announced her engagement to David H. Shair of New York city.

The February meeting of the Parent-Teacher Association will be held in the high school auditorium next Monday evening. "The Straw Man," a three-act play written by H. M. Eppes, and Miss Violet McGree, will be given at this meeting. The music, dancing and acting in the play will be in charge of Mrs. C. H. Van Kirk, Miss Ruth E. Rider and Miss Nellie Newkirk. Mr. Eppes himself will take the part of the straw man. A musical program will also be given.

Betty McGrath, two-year-old daughter of Mr. and Mrs. John F. McGrath took part in the 78th annual soiree of the Charles T. Aldorf Dancing Academy held in Newburgh last Wednesday evening. Besides dancing a jazz ballet, which brought her back for several encores, little Betty represented "Jack Be Nimble" in a Mother Goose dance.

A farewell party was given for Miss Barbara Kelb of the local telephone force by the local operators at the office of the telephone company, Tuesday evening. Miss Kelb is to leave for Monticello on Monday. During the evening which was spent in playing games, Miss Kelb was presented with a fitted overnight bag by the girls of the Ellenville office. Prizes which were given for pinocle were won by Miss Naomi Kelb and Miss Helen Terwilliger.

Results of Industrial Games

The Apollos defeated the Central Hudson A team, 42-27, and the Silk Mills defeated the Columbia quintet, 29-21, in Industrial League basketball games at the Y. M. C. A. court Thursday night.

The first game was clinched by the Apollos in the opening half at the end of which they led 39-12. Jimmy Merritt led the scoring field by adding 20 markers to the Apollo's score. Smith of the Central Hudson team registered 14 points.

The Columbias, who took the first half of their tilt with the Silk Mills, 12-10, were unable to weather the attack of the weavers made in the closing session. In this session the Silk Mills came through for 19 points while the shirt makers registered nine. Marchand of the Silk Mills led the scoring field with 10 points. Mulford got seven points for the Columbias.

MERCANTILE LEAGUE BOWLING RESULTS

After losing the first to the Central Hudson Primaries the Kingston Trust Company bowlers took the next two Mercantile League games at the Y. M. C. A. alleys Thursday night. LeFever of the bankers team did the best scoring with 526 points. Rieman registered 523 for the Primaries. The Kingston High School Faculty took the two first games from the Canfield Supply Company pin men, who copped the final tilt by four points, when they met on the "Y" alleys Thursday night. Paul of the teachers' aggregation spilled the mops for a total of 551. Van Etten of the hardware team registered 505 points.

HOPES INDIAN WILL BECOME STAR PITCHER

Philadelphia, Feb. 24 (AP).—An Oklahoma Indian who, Manager Connie Mack hopes, will develop into a star pitcher, has joined the Philadelphia Athletics squad at Fort Myers, Fla.
He is Lee Daney, a product of Haskell Institute. Known as Chief Whitehorn, the new recruit is 22 years old. He is nearly six feet tall and weighs 172 pounds. He pitched for three years at Haskell and started his semi-professional career in 1925 with the Nebraska Indians. Last year he pitched for several semi-pro teams in Kansas City. Mack says he looks like a "comer."
Reports from the Athletics training camp today said the squad included 16 pitchers, four catchers and two fielders. Warming up exercise and batting practice will constitute most of the workouts until arrival of the full squad next week.
Manager Shotton reported from the southern camp of the Philadelphia Nationals at Winter Haven, Fla., that his pitchers and catchers were gradually working out the winter kinks and would be ready for two drills a day when the other players arrived. Most of the men are expected by Tuesday.

CLEVELAND INDIANS BEGIN AT TRAINING CAMP

Cleveland, Feb. 24 (AP).—Roger Peckinpaugh's Cleveland Indians have begun their American League baseball campaign at their New Orleans training camp. An auspicious start was made yesterday with a short throwing session after two days of steady rain.
Eighteen pitchers, eight of them veterans, took an easy workout. Bill Bayne, former St. Louis Brown, who recently was drafted from Toronto, will compete with nine recruits for the two remaining places among the ten men Peckinpaugh plans to carry.

Sport Slants

By Alan J. Gould,
Associated Press Sports Editor.

New York, Feb. 24 (AP).—The winter weather has been most unkind to the winter sports which will bring together the best of the world's athletes at the Kings of Columbia indoor meet next week. The "game of the century," as it is enthusiastically called, but it should add a colorful chapter to the astonishing mile running book of the current decade.

If the boys are careful about the use of their elbows it also should be one of the fastest mile races ever run indoors. If the present record of 4:12 is not actually broken. Neither of the joint holders of this record, Joe Hay and Paavo Nurmi, will be on hand to defend it.

Conger has never beaten Hahn at the mile but the slim Iowa state star must be reckoned with next week in view of his sensational performance in the past fortnight, including triumphs over both Hahn and Peltzer at shorter distances.

Hahn has "peaked" for this race and in the opinion of his coach, Jack Ryder, of the Boston A. A., has a "good chance" to beat the present standard.

It is interesting to note that four of the greatest milers of all time have been developed since the war. This "big four" is headed by peerless Paavo Nurmi. The others are Hahn, Hay and Edwin Wide, high stepping Swedish schoolmaster. Here are the times for the best three miles each of this quartet has turned in since 1919, when Hay had one of his greatest years:

Nurmi	Wide	Hahn	Hay
4:10 2-5	4:12 1-5	4:12 1-5	4:12
4:11	4:12 3-5	4:12 4-5	4:14 2-5
4:12	4:13 1-5	4:13 2-5	4:14 3-5

It is noteworthy in scanning this startling collection of figures that the foreign pair did their best work outdoors and the American stars on the boards. Nurmi's 4:10 2-5 is the present world's outdoor record, set in 1923 at Stockholm, where he defeated Wide. The Swedish ace, oddly enough, was beaten on each of the occasions he ran his fastest miles. He bowed to Nurmi twice and to Hahn last winter at Madison Square Garden when the American turned in his greatest mile.

Of the milers who flourished 15 and more years ago probably John Paul Jones of Cornell had the best equipment of all to give Nurmi or any of the current "Big Four" a real battle.

Jones, in the opinion of his coach, Jack Moakley, "had everything" but he never applied the scientific record breaking methods that Nurmi and others have employed since Jones hung up the intercollegiate record of 4:14 2-5 in 1913. It still stands.

The American "Big Four" of mile running in the days before the war included Abel Kiviat, Norman Taber and Mel Sheppard as well as Jones, but all four of them were beaten in the historic Olympic 1,500 meter final of 1912 by the long-striding Englishman, Arnold N. S. Jackson, now a resident of the United States.

CHANDLERS TO PLAY CATSKILL HIGH-SATURDAY

The Chandler basketball team will meet the Catskill High School varsity at the Y. M. C. A. court Saturday night, previous to the Industrial League contests. It is expected that a goodly number of fans will witness the game. The Catskill team which scored a recent victory over the Poughkeepsie High School team was defeated by the Chandlers at the Greene county court some time ago. The school boys will endeavor to avenge the setback when they play here Saturday. A small admission will be charged for the game.

St. Mary's Want Games.
Coach Maroon of St. Mary's Parochial School basketball team would like to book games for the quintet. Challenges are especially issued to Public Schools, Nos. 5, 6, 7 and 8; the Comforter, Presbyterian and Clinton Avenue Juniors of the Y. M. C. A. Sunday School League. Teams who accept the challenge may call 1155-J.

Helen Wills to See No More Fights

San Francisco, Feb. 24 (AP).—Helen Wills, woman tennis champion, who attended the Mickey Walker-Jack Willis prize fight here yesterday, made known today that she never wants to see another ring battle.

"Unless," she added, "I might have the opportunity to see Mr. Tunney some day. I understand he boxes, and does not fight. I think I might like that."

Miss Wills attended the Walker-Willis bout after she received the approval of her parents that it was "perfectly all right for women to attend prize fights if they wanted to."

"The fight was very interesting," said Miss Wills. "But I do not want to go again. Tennis is the only game, and I do not believe that any one who really loves tennis as I do could ever become a fight fan. The two sports are so different. It is hard to talk about them together."

"But I really was agreeably sur-

prised at the way things were handled. It was so much nicer and much more comfortable than I expected it would be, but I was surprised that there were so few women there."

"What particularly interested and fascinated me was the beautiful play of muscles displayed during the fight, and the footwork."

"Yes, I am glad I went, but I am quite sure I shall never go to another fight. You know, I have yet to see a six day bicycle race and an ice hockey game. I want to see everything in the line of sports, at least once."

HOT SPRINGS NOT HOT ENOUGH FOR GIANTS' PRACTICE

New York, Feb. 24 (AP).—The New York Giants awaited action by the weather man today for a resumption of baseball practice at Hot Springs. A cold spell blocked workouts yesterday so the players hiked in the mountains and then put on some light entertainment for Catcher "Spanty" Hogan, who was confined in bed with a severe cold. Leo Mangum supplied some banjo numbers while Pitcher Jack Levy came through with a fiddling act.

JIMMY SMITH TO BE BANQUET GUEST HERE

Jimmy Smith, world's champion bowler, will be the guest at a banquet to be held in the Y. M. C. A. Thursday evening, March 3, previous to his appearance in the bowling alley against the best pin men in this vicinity. Opponents for Smith will be picked by means of elimination tournaments, the first of which will be held at the "Y" Saturday afternoon. There will also be one on Saturday evening and on dates to be announced later. Bowlers who would like a chance to perform against the veteran of the allers are requested to enter the elimination tourneys.

First Yank Contingent Ready

New York, Feb. 24 (AP).—Headed by the famous home run combination of Babe Ruth and Lou Gehrig, the first contingent of the world champion Yankees will depart for the southern training camp at St. Petersburg, Fla., tonight. Other members of the band are Catchers John Grabowski and Bill Eismann and infielder Leo Durocher. Pitcher Myles Thomas will join the party at Washington.

COMFORTERS BEAT ST. JAMES BOWLERS

The Comforter bowlers took two out of three Church League games from the St. James trio Thursday night at the Y. M. C. A. alleys. Williams of the winners did the best scoring with 497 points. Styles registered 455 markers for the St. James team.

Power Companies Subpoenaed.
Washington, Feb. 24 (AP).—The
federal trade commission today
issued subpoenas to power companies
all over the country for information
on which to carry out the senate
order for an investigation of their
financing methods.

**Financial
and Commercial**

New York, Feb. 24 (AP).—The
stock market was steady, with
many stocks showing gains. The
market was buoyant, with the
Dow Jones Industrial Average
closing at 214.12, up 1.12 points.
The market was buoyant, with the
Dow Jones Industrial Average
closing at 214.12, up 1.12 points.

The rally in the rails around mid-
day was followed by the dropping out
of some points of weakness among
the specialties, but General Motors
and other leaders were pointing up-
ward in the early afternoon.

Outside the brokers' loan state-
ment, there was little in the day's
trading to influence the price more
than the fact that money remained at
4 1/2 percent but banks called about \$25
million in loans, presumably to meet
heavy weekend demands for cur-
rency.

Wabash, which is expected to be
aligned with either the "Nickel
Plate" or the Baltimore and Ohio, if
current market reports are true,
quickly ran up four points, as did St.
Louis Southwestern, Delaware and
Hudson and Bangor and Arundel.

John J. Brown, wife of Samuel J.
of Ellenville, died at this city at her
home Saturday afternoon at 2:30
after a long illness.

Michael Toney died Wednesday at
his home in Ellenville, aged 47
years. He is survived by his mother,
one daughter, Elizabeth, and three
sons, Mary and James at home,
and John Toney of Ellenville.

William J. Patterson died at his
residence, 175 Henry street, this
morning. Funeral from his late
home Monday at 9 a. m. and at
St. Joseph's Church. Interment in
Wiltwyck Cemetery.

News was received last night of the
death of Mary Victoria Burhans after
a brief illness, on the 22nd at her
home in El Reno, Okla. She was
the daughter of William M. Burhans
and the late Mary W. Burhans.

She is survived by her husband, Dr.
H. C. Brown, two sons and a daugh-
ter five years old. Mrs. Brown in
her girlhood years was a resident of
this city and when she went to Okla-
homa she was educated in the Con-
gregational College. In her life's
work she has been active in church
and home and in her untimely and
unexpected death she leaves a large
circle of sorrowing relatives and
mourning friends.

The funeral of Harry Vogt, was
held from the late residence, 55 Fox-
hall avenue at 9 o'clock this morning
and thence to St. Mary's Church
where a high Mass of requiem was
offered for the repose of his soul by
the Rev. W. H. Kennedy as cele-
brant. The church choir, of which
deceased was a member, sang the

Gregorian chant, and St. Aloysius
Society attended the service in a
body. The burial offerings were pro-
fuse and beautiful. The honorary
bearers, all members of St. Aloysius
Society, were Robert Murphy, Joseph
Schuler, William Golden, John
Edwards, John Dolan, Kenneth Stratton,
Edward Joyce and Edward Coughlin.
The active bearers were Philip Fee-
ney, Joseph Coughlin, Bernard
Feehey and Bernard Coughlin, coun-
sils of the deceased. Interment was
in the family plot in St. Mary's cem-
tery. As the body was lowered to its
last resting place the grave was sur-
rounded by the altar boys of the
church and the members of the St.
Aloysius Society. The final absolu-
tion was pronounced by the Rev.
F. N. Fitzpatrick.

**Explosion Kills
15 to 18 in Mine**

Fort Smith, Ark., Feb. 24 (AP).—
Fifteen to eighteen men are believed
to have been killed today by an ex-
plosion in mine No. 2 of the Mann
Coal Company at Joppy, near here.
Approximately 125 men were
in the mine at the time of the blast,
but more than 100 of them are be-
lieved to have escaped.

Rescue crews were sent into the
mine immediately.
The cause of the explosion has not
been determined.

It was not definitely determined
how many escaped but mine chiefs
estimated that at least fifteen and
possibly eighteen men still were in
the mine.

Those who escaped held little hope
that any of those remaining in the
explosion area were still alive.

William Simmons and wife of
Flatbush are at Daytona Beach,
Florida, for a couple of months.

Miss Marguerite McAniff of
Franklin street will spend the week
and visiting friends in Ellenville
and Prattville.

A daughter, Gloria, was born to
Mr. and Mrs. Lester Persons of
Harwich street on February 13. Dr.
C. B. Van Gansbeek was the attend-
ing physician.

H. R. Brigham and wife and Miss
Frederic Brigham of this city and
Richard Wells and wife of Tanager-
ville have gone to Florida where they
will remain until April. The trip was
made in the Brigham car.

Mr. and Mrs. John L. Weaver of
147 Smith avenue are receiving con-
gratulations over the arrival of an
eleven pound son, John Joseph, born
February 7, at the Metropolitan Hos-
pital. Mother and son returned to
their home on Sunday. Dr. Mark
O'Meara was the attending physi-
cian.

Miss Evadine Todd and Harold
Garrison, both of Arkville, were
married in the St. James M. E.
Church, this city, by the pastor, the
Rev. J. Wilbur Tetter, Sunday, Feb-
ruary 19. They left for Florida im-
mediately after the ceremony, where
they expect to remain until the first
of April. Mr. Garrison has a num-
ber of friends in Kingston. He was
graduated from the Kingston High
School several years ago.

DRY BROOK.
Dry Brook, Feb. 24.—Mr. and
Mrs. Grover Kittredge were business
callers in Margaretville Wednesday.
Mr. and Mrs. Earle Gosso of
Pine Hill spent the week end with
Mrs. Gosso's parents.

Milk inspectors are frequent vis-
itors in this place.
Mr. and Mrs. William Fairhairn
were shopping in Margaretville Tues-
day.

George Armstrong, Sr. and son,
George, Jr., went to Canada Monday
to attend the funeral of Jack Arm-
strong, brother and uncle, who died
in New York city Sunday. He had
been ill for some time and spent
several seasons in this vicinity hoping
to receive benefit from mountain
air.

Miss Evadine Todd, daughter of
Mr. and Mrs. O. A. Todd, and Har-
old E. Garrison, son of Mr. and Mrs.
William Garrison of Arkville, were
united in marriage Sunday at St.
James Church, Kingston. They left
for a honeymoon trip to southern
quarters. They have the very best
wishes of the community for their
future happiness.

The Rev. Marion Combs was a
pleasant caller in this place Wednes-
day.
There was no service in M. E.
Church Sunday.

A family party was held at the
home of O. D. Baker Saturday, Feb-
ruary 18, in honor of their daugh-
ter, Mrs. George Armstrong, Jr.'s
birthday.

**FIRE DESTROYED HOUSE
AT CEMENTON WEDNESDAY.**

Fire which broke out early Wed-
nesday evening, destroyed the resi-
dence of John Belich at Cementon.
The fire started in the attic and Mr.
Belich with the aid of neighbors was
able to remove most of his belong-
ings from the burning building. Fire-
men from Catskill went to the scene
out when they arrived the fire was
beyond control.

John McCormack Coughs Stopped A Papal Count

New York, Feb. 24. John McCormack, noted tenor, has received notice from "The Universe" London Catholic newspaper that he has been elevated to the Papal count with the title and dignity of Count.

The title is one which the Papal count confers upon men of unblemished character who have in any way promoted the interests of the church and the Holy See.

McCormack, who has been a frequent visitor to the Papal court since Prince to Paris, that of count being the one most ordinarily conferred, and they are bestowed by the Pope as temporal sovereign.

The title of count is conferred to the family name and is either purely personal or transferable by right of primogeniture in the male line.

The Universe says it understands this honor was conferred "in recognition of the great singer's eminent position in the world of art, together with his life-long ardent devotion to his faith and to the Holy See and his unflinching generosity to Catholic causes both in the old and new worlds."

MARINES CONTINUE DRIVE IN NICARAGUA.

Managua, Nicaragua, Feb. 24. (AP)—Continuing their drive against scattered bands of rebels, American marines have killed three insurgents and wounded five. There were no marine casualties in the skirmish, which occurred near Telencagua, twenty miles southeast of Ocotal.

The rebels were believed to be part of the scattered forces of General Augustino Sandino. A marine patrol of 20 men under Lieutenant John G. Walraven and a singular force of Nicaraguan national guards under Lieutenant Donald McDonald participated in the encounter.

There are 1,200 marines, in addition to several hundred national guardsmen, operating north of Estelí, while 1,700 marines have established bases north of Somotillo and Matagalpa, where Sandino was active recently.

Modernize your watch with a Wadsworth Band!

At all smart places you see them—these beautiful, durable wrist-watch bands of white or green gold. So appropriate—they seem part of the watch itself!

It takes but a moment to fit a Wadsworth Band to any wrist or strap watch of modern design. Come in—let us give your watch this new style, beauty, and convenience, at moderate cost.

Perhaps you will want us to attach your Wadsworth Band to a new watch—in a celebrated Wadsworth Case. For in the dress of fine watches, as in these new watch bands, Wadsworth is the acknowledged style leader.

Cordially yours,
